

POWERPLAY

SE Quick Start Guide Apr. 2025

Warning

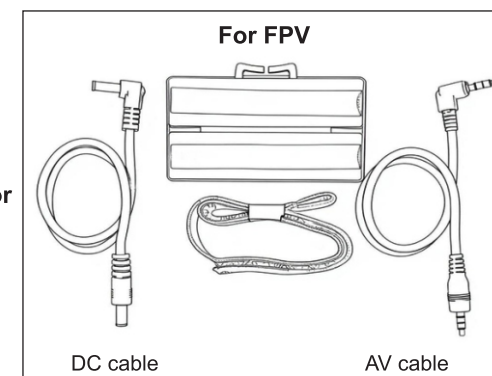

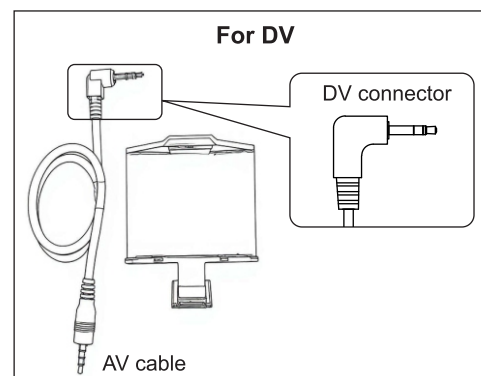

1. Only use certified 18500 lithium-ion batteries (recommended capacity $\geq 2400\text{mAh}$). Do not use batteries of other types or sizes, as this may cause device malfunction or safety risks.
2. The USB-C connector only supports 5V/2A charging, does not support USB-PD charging.
3. When this device is first installed with the 18500 battery or when the battery is replaced, if the device fails to power on, a USB-C data cable should be used to charge the device and activate the battery protection.

Specifications
